Title : 96 Banshee, bad ma-ma-jama drag bike
Description : Recently traded for this ATV, I don't have any business on it so i want to sell it, it has all the fast and fancy stuff a Wicked-Narly dune dominator should have from the shiny 421cc JSR Performance motor pumpin out 100hp. All the way to the extended swing arm. Be careful when you release the direct-drive lock-out clutch, it throws rooster tails so big u could sand-blast a water tower. I'm not gonna even try to name all the accessories and mods on this lil hot-rod. The bike is super fast and super nice, if u got any ?'s about the ATV, I will try to answer them but haven't the slightest clue what some of the lingo and exact dimensions of stuff like the brake reservoir volume, camber off-set, seat foam density, or any of that other stuff that some may ask but really doesn't matter. Also comes with full set of new paddles, a set of old paddels on aluminum wheels and a set of regular tires and yellow wheels. Also comes with a set of $200 LED headlights still in the box If bn cock-of-the-walk at Beaver or catchin the eye of that lil group of dune-tang while ur at Little Sahara. This is ur Ace in the hole.
