Title : mini doxie male puppy

Description :

He is so precious, and will be a great addition to any home. His mom and dad are probably the best doxies I have ever owned. Both parents are on site, and I even had the grandparents too. I think he will be under 10 pounds. He is eating puppy food, and ready to go to a forever home. I would be happy to send you pics of the parents too. both parents are piebald, and grandma is a black and tan.
