### Guymon Man Found Dead In His Home

An investigation is ongoing after Daniel Alan Freach, 55, of Guymon, was found dead inside his home at 707 N. Canyon Wednesday morning, according to Oklahoma State Bureau of Investigation spokesperson Jessica Brown.

Freach's body was discovered by a neighbor's son and he notified the Guymon Police Department.

"We are investigating this as a suspicious death," said Brown, "and we are waiting on an autopsy."

Brown said the autopsy will hopefully be done in the next couple of days.

GPD is unable to release any additional information due to this case being under investigation.
