### What You Need To Know About Common Core State Standards

What do you know about Common Core State Standards? The problem is that these national standards create expectations for our teachers without equipping them to fulfill those expectations. You know that there are issues in our public school system that are making it tougher for the next generation of Kansans to have more opportunity than ours. There will be a panel discussion on real solutions in K-12 education from the bottom-up and the dangers of top-down, cookie-cutter standards that are affecting children all over America right now. The event will take place on Saturday, January 11, 2014 from 3:00 PM to 4:30 PM (CST) at the Cimarron Library in Cimarron, KS Refreshments will be provided, and there is no charge to attend, but you are asked to register in advance so they can plan accordingly. Register by email at : [infoKS@afphq.org](mailto:infoKS@afphq.org)
