Dodge City Casino Sets Up Webcam

McPherson Contractors, the general contractors for the Boot Hill Casino and Resort in Dodge City, has installed a webcam that you can visit to view their progress in building the casino. The webcam updates every 10 seconds and can be panned to the left and right to see a broader view.

Currently, foundations, under slab plumbing, and further dirt work is in progress. By mid March you should be able to see the building taking place. According to contractors, the project is on schedule.
