Dodge City Casino To Open In December

Dodge City is the only site in Kansas, selected for expanded gambling, to actually start building a casino.

Now, in phase one of construction, Boot Hill Casino and Resort is only months from opening its doors.

From the old west façade to the beams on the casino floor, Boot Hill Casino and Resort is the only planned casino to actually go through with their expanded gambling plans.

Come December it will be the only state run casino in Kansas, obviously bringing more people to Dodge City. And as city leaders hope, bring more people to all of Dodge City's attractions.

Twelve years after the idea was born, Dodge City is only months away from a big addition, with some very high hopes.
